LBT-262: IDS VCM II

New to IDS, or using the VCM or VCM II for the first time? This program provides step by step instructions on how to setup your VCM or VCM II with the new subscription service. This service is mandatory for VCM II modules and is required if your going to be fixing 2013 cars and newer. In this IDS VCM II program, ASE Instructor Mark DeKoster, takes you through the VCM II Subscription process, setting up your VCM II on your PC, moving the VCM II from PC to PC, as wells as perform hands on demonstrations to help you become a better technician in the shop tomorrow & make more money.
