## ONLINE TECHNICIAN TRAINING

# LBT 136:Ford 6.0L DIT Powerstroke Diagnostics

Want to learn from Ford's Senior Master Technician and Diesel Specialist? AVI brings Mike Cleary's diesel expertise straight to you with this program on Ford Powerstroke 6.0L. This class is full of great insider tips that you won't find anywhere else. Mike covers PCM Inputs and Outputs and explains which sensors have high failure rates and what to look for.

He also covers hard start and no start testing and performance diagnostic procedures. The Motor illustrated repair manual is 1,300 pages of descriptions and operation, diagnostic strategies, and symptoms charts. The manual has over 500 pages of DTC index and pinpoint tests, along with a DTC code index with descriptions of the codes, reference values, and PCM pin descriptions and expected values.

If you need Powerstroke training look no further. There is no better place to get it than straight from a Ford instructor and diesel specialist.

**Training time: 80 minutes**
